Animals in the Plant – Important Notice: Please stop treating the animals on-site as pets. While the intention may be kind, this behavior is creating a nuisance and, more importantly, causing harm to the animals themselves. The animals are beginning to in-breed, which can lead to serious health issues.

Additionally, their presence on-site creates unsanitary conditions, which can contribute to hygiene issues, attract pests, and increase the risk of spreading bacteria or parasites. This poses a health concern for everyone working in our Plant.

Several employees are also allergic to animals and have already experienced reactions due to their presence.

If you are interested in caring for a pet, we kindly ask that you adopt one and provide proper care at home. For the health and safety of both employees and animals, we must stop interacting with or feeding the animals on plant property.

Your cooperation is greatly appreciated.
